MATCH YOUR WITS No. 10
GAME No. 10 FIDDESTICKS
 (for two or more players)
 Hold a loose bundle of matches cupped in your hand, then open your hand so that they fall in a heap on the table with matches resting on each other. Each player takes it in turn to remove one match at a time, taking great care not to move any of the other matches. When one player moves any other match, however slightly, his turn is over, and another player takes his turn, until he accidentally causes another match to move. The winner is the player who has the most matches at the end of the game.
